

SUMMARY

Fullstack Developer with 1+ year of experience building and maintaining scalable web applications across multiple industries, including education technology and business systems. Experienced in developing workflow automation platforms, inventory systems, and integrated applications such as dashboards, parent apps, digital student cards, and point-of-sales systems. Skilled in **Node.js (Express)**, **Laravel**, and **Go**, with strong expertise in REST API development, system integration, and managing large-scale data using PostgreSQL, MySQL and MongoDB. Proven ability to deliver reliable and efficient solutions that streamline business processes and improve system scalability.

EXPERIENCE

PT CAZH TEKNOLOGI INOVASI, PURWOKERTO

(September 2025 - Present)

Fullstack Developer

- Contributed to an integrated education platform (dashboard, parent apps, digital cards, POS) used by thousands of partners
- Built and maintained scalable fullstack systems using Node.js, Laravel, Go, and React for an integrated platform serving thousands of partners
- Redesigned legacy services using modern technologies, reducing operational costs and improving performance
- Developed RESTful APIs and handled large-scale data (PostgreSQL, MongoDB)
- Enhanced system reliability, efficiency, and cross-service data consistency

PT TANJUNG MULIA INFORMATIKA, PURWOKERTO

(August 2024 - July 2025)

Fullstack Developer

Developed multiple web-based systems using Laravel, Node.js, and Bootstrap in collaborative team environments.

- Built **SITAMAN (UII Yogyakarta)**: a workflow automation system for final project submissions, approvals, and tracking. Reduced manual processing and improved transparency for 500+ annual submissions
- Developed **SIMTA (Politeknik Transportasi Bali)**: a role-based academic workflow system. Used by 1,200+ students and faculty, improving coordination and reducing administrative workload
- Created a **custom Inventory System (Aneka Emas)** for real-time stock tracking and reporting. Implemented role-based access control and structured database design for scalable applications

EDUCATION

Cilacap State Polytechnic (2022 - 2025)

D3 - Informatics Engineering

Notable Achievements : Coordinator of the Communication and Information Division of PROTIC (Programming Community) 2023-2024 | Secretary General of the Student Executive Board (BEM PNC) 2023-2024 | Top 2 of KRENOVA (Community Creativity and Innovation), Cilacap Regency Government, 2024.

SKILLS

Technical: Node.js (Express), PHP (Laravel), Go, React.js, Next.js, JavaScript, Tailwind CSS, Bootstrap, REST API, PostgreSQL, MySQL, MongoDB, Git, Docker, Nginx

Interpersonal: Leadership, Communication, Collaboration, Problem Solving, Adaptability
